

How to Setup Your Patient Fusion Portal

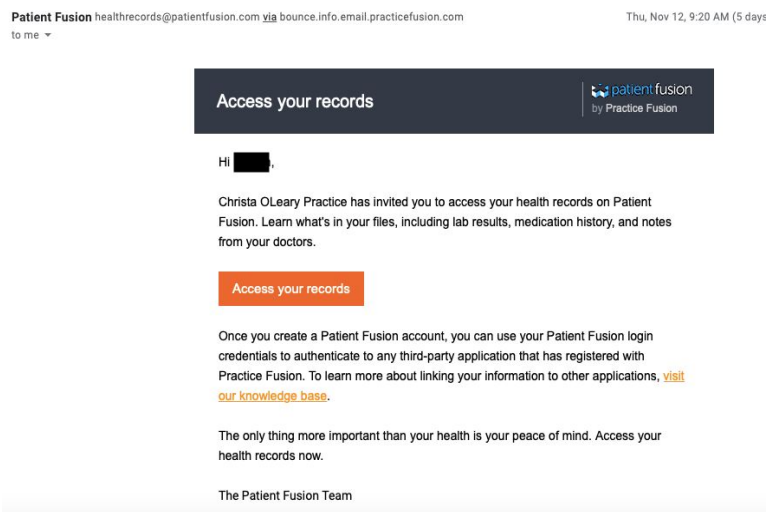

Congratulations on taking your first step to better health!

At your initial appointment with Dr. O'Leary, you should have received a piece of paper with your temporary Patient Fusion Portal PIN. While there is an option to use the phone number associated with your account, this option does not always work. Therefore, using your provided PIN will be most effective.

Step 1

You should have received an initial email from Patient Fusion granting you access to your health records.

If you don't see it, make sure you check your spam folder and Promotions tab!

Step 2

You'll be prompted to sign up once you reach the Patient Fusion website.

Use the email and phone number you gave us in your New Patient packet.

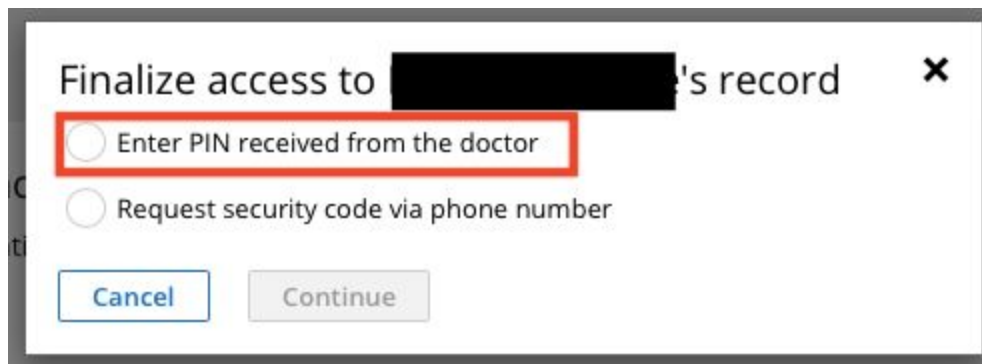

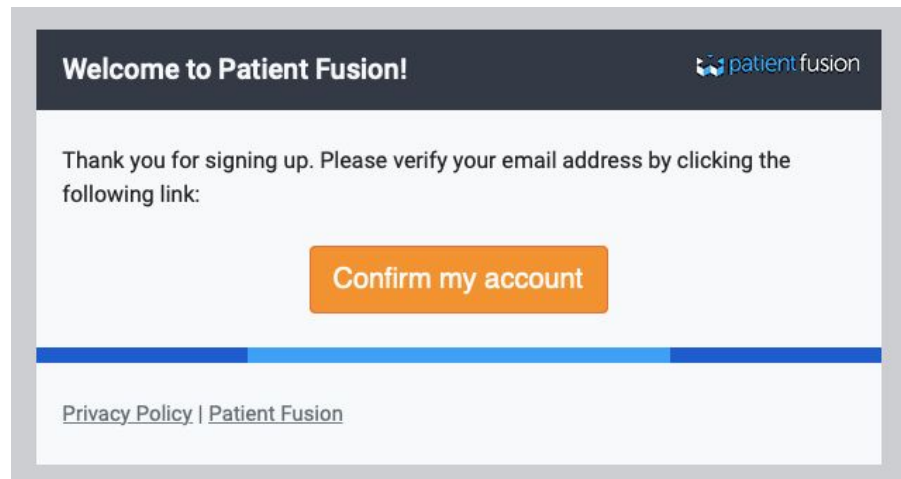

Choose a username and password that you will be able to remember easily, but would be hard for somebody else to guess.

After you sign up, you will get a confirmation email to confirm your account.

A screenshot of the Patient Fusion website's sign-up form. The form is titled "patient fusion" and has a green banner that says "IF YOU ALREADY HAVE AN ACCOUNT, CHOOSE 'LOG IN' BELOW." Below the banner are two tabs: "Log In" and "Sign Up". The "Sign Up" tab is active. The form contains several input fields: an email field with "yours@example.com", a username field with "your username", a password field with "your password", a "First name" field, a "Last name" field, and a "Phone number" field. At the bottom of the form, there is a checkbox area with the text "By signing up, you agree to our terms of service and privacy policy." and a prominent orange "SIGN UP >" button.

Step 4

To finalize your records, enter the PIN provided by our office.

Patient's date of birth (MM/DD/YYYY)

PIN received from patient's doctor
